

Enterprise Sign-On Engine - Feature # 22: Blank screen on auth problem

Status:	New	Priority:	Normal
Author:	S M	Category:	ESOE Core
Created:	04/29/2009	Assigned to:	S M
Updated:	07/28/2009	Due date:	
Subject:	Blank screen on auth problem		
Description:	If the backend ldap server used for auth and identity is dead the user is not presented an error page. The system instead fails to a white page at /signin		

History

05/21/2009 11:39 PM - S M

- Category set to ESOE Core

05/22/2009 09:06 AM - S M

- Target version set to 0.9.5

07/28/2009 02:13 PM - S M

- Assigned to set to S M

- Target version changed from 0.9.5 to 0.9.6

This error manifests now as an authentication failure. Not ideal, but not critical for the next release. Delayed.
